

Ebuka Moses Okoye

Software Developer

okoyemoses83@gmail.com | Lagos, Nigeria | <https://linktr.ee/ebukamoses>

ABOUT ME

I am a passionate Full-Stack Developer with a strong track record of delivering high-quality, user-focused applications. I have experience designing and developing both frontend and backend solutions, ensuring seamless integration and performance across platforms. I thrive in dynamic, collaborative environments, working closely with cross-functional teams to transform innovative ideas into scalable, reliable solutions. Committed to continuous learning and innovation, I stay at the forefront of emerging technologies to ensure the solutions I deliver are both robust and future-ready.

WORK EXPERIENCE

ONYEBF TECHNOLOGY - (On Site), Software Developer 01/06/2025 – Present | LAGOS, NIGERIA

- Develops and maintains both client-side and server-side applications using Node.js, Express.js, and modern frameworks.
- Designs and manages APIs while working with databases such as MongoDB and MySQL.
- Ensures applications are responsive, scalable, reliable, and deployed through CI/CD pipelines.
- Utilizes AWS for hosting and scaling, applying DevOps practices with Docker and Kubernetes.

WEB3BRIDGE AFRICA, BLOCKCHAIN DEVELOPER - (Training) 06/01/2025 – 30/05/2025 | LAGOS, NIGERIA

- Design, develop, and deploy secure smart contracts.
- Build decentralized applications (dApps) with intuitive, user-friendly interfaces.
- Integrate blockchain functionality into web and enterprise systems.
- Conduct smart contract testing, audits, and security reviews.
- Collaborate with cross-functional teams to deliver innovative blockchain solutions.
- Stay up-to-date with emerging blockchain technologies and protocols.

DOSH SERVICES, FULL-STACK DEVELOPER - (Hybrid) 03/10/2021 – 20/12/2024 | LAGOS, NIGERIA

- Integrated and optimized RESTful APIs with SSR, pagination, and caching, improving performance, scalability, and state management with Redux.
- Enhanced platform capabilities by connecting multiple third-party APIs, ensuring seamless communication across systems and services.
- Leveraged Node.js for efficient server-side operations, optimizing request handling under high user loads.
- Designed and implemented secure authentication and authorization workflows, strengthening data protection and compliance.
- Led thorough testing and debugging to proactively resolve bottlenecks, maintaining high reliability and code quality.

ROOAH, LLC, WORDPRESS DEVELOPER/SUPPORT ENGINEER - (Remote) 02/04/2021 – 31/08/2021
DELAWARE, UNITED STATES

- Managed full-stack website operations, including front-end/back-end development, updates, backups, and security monitoring to ensure performance, stability, and data protection.
- Diagnosed and resolved complex technical issues and support tickets, reducing downtime, improving response workflows, and maintaining high client satisfaction.
- Optimized websites for speed, SEO, and security through in-depth debugging, performance tuning, and tailored feature enhancements aligned with client objectives.
- Built and customized WordPress themes and plugins to deliver client-specific functionality and seamless user experiences across multiple projects.

CORNELLI AND MOSH CONSULT, FRONT-END DEVELOPER - (On Site) 05/12/2020 – 27/05/2021 | LAGOS, NIGERIA

- Led front-end architecture design for a cloud-based communication platform using React.js, JavaScript, and micro-frontend principles, delivering a scalable and competitive product.
- Built standardized reusable UI components with designers and documented them in React Storybook, improving consistency, maintainability, and onboarding efficiency.
- Integrated RESTful APIs with backend engineers, ensuring seamless data flow, reliable performance, and efficient state management with React Hooks.
- Converted UI/UX designs into functional WordPress websites and customized components, enhancing cross-platform usability and accelerating development cycles.

WAAW FOUNDATION, FRONTEND DEVELOPER - (On Site) 05/07/2019 – 29/11/2020 | LAGOS, NIGERIA

- Implemented responsive design for websites, increasing cross-browser compatibility.
- Played a vital role in the UI development of the company dashboard, making it mobile-friendly and increasing brand web application traffic by 30%.
- Participated in debugging and code reviews to enhance code quality and adherence to coding standards.

EDUCATION AND TRAINING

DIPLOMA IN SOFTWARE ENGINEERING, Inspire Vocational Academies 11/11/2018 – 20/06/2019 | Lagos, Nigeria

BACHELOR OF BUSINESS ADMINISTRATION, Nnamdi Azikiwe University (Unizik) Awka, Nigeria 13/09/2013 – 06/08/2016
Awka, Anambra State, Nigeria

DIPLOMA IN BUSINESS ADMINISTRATION, Nnamdi Azikiwe University (Unizik) Awka, Nigeria 05/09/2011 – 08/06/2013
Awka, Anambra State, Nigeria
